

Navicat Premium Feature Matrix

General	Essentials	Enterprise
MySQL 3.21 or later, Drizzle, OurDelta, and Percona Server	✓	✓
MariaDB 5.1 or later	✓	✓
MongoDB 3.0 or later	✓	✓
Redis 2.8 or later	✓	✓
Oracle 8.1 or later (macOS Edition starts from Oracle 9i)	✓	✓
PostgreSQL 7.3 or later	✓	✓
SQLite 2 and 3	✓	✓
SQL Server 2000 or later	✓	✓
OceanBase Community and Enterprise 3.1.0 or later (Enterprise Oracle Mode not available in macOS Edition)	✓	✓
Amazon RDS, Amazon Aurora, Amazon Redshift, Amazon ElastiCache, Microsoft Azure, Oracle Cloud, Google Cloud, Alibaba Cloud, Tencent Cloud, MongoDB Atlas, Huawei Cloud	✓	✓
Connection		
Secure connection: SSH/HTTP/SSL	✓	✓
PAM and GSSAPI authentication	✓	✓
Kerberos and LDAP authentication	✓	✓
x.509 certificate authentication	✓	✓
Connection profiles	✓	✓
Export/import connection settings	✓	✓
Data Manipulation		
Data Transfer (Same or cross server type)		✓
Data/Structure Synchronization		✓
Data Viewer and Editor		
Grid view, Tree view and JSON view	✓	✓
Form view		✓
Foreign key data selection		✓
Text, Hex, Image, Web or BFile viewer/editor	✓	✓
Raw mode editing	✓	✓
Data Validation	✓	✓
Customize data type colorings	✓	✓
Find and replace	✓	✓
Filter records	✓	✓
SQL/Script Processing		
PL/SQL and PL/PGSQL Debugger		✓
SQL/Script Editor	✓	✓
Visual SQL/Script Builder		✓
Find Builder		✓
Aggregate Builder		✓
Code Snippet and Completion		✓
SQL/Script Beautifier and Minifier		✓
Find and replace	✓	✓
Create parameter queries	✓	✓
Open query files in an external editor	✓	✓
Console	✓	✓
Server Security		
Manage user	✓	✓
Server Monitor		✓
Command Monitor		✓

Navicat Collaboration	Essentials	Enterprise
Collaboration: create projects, add members	✓	✓
Synchronize connections and queries	✓	✓
Synchronize charts, models, snippets and virtual groups		✓
Data Visualization		
Support 20 chart types		✓
Visualize live data		✓
Customized fields		✓
Customize multiple pages dashboard		✓
Add interactive controls		✓
Data Modeling		
Conceptual, Logical and Physical model		✓
Reverse/forward engineering		✓
Auto layout		✓
Add vertices, layers, images, notes, labels and shapes		✓
Print database diagrams to PDF and graphic files		✓
Import/Export		
Import/export data from/to plain text file formats: TXT, CSV, XML, JSON	✓	✓
Import/export data from/to most popular formats: DBF etc		✓
Import data from ODBC, MS Excel, MS Access		✓
Export data to MS Excel, HTML		✓
Export data to MS Access (Windows Edition only)		✓
MongoImport and MongoExport	✓	✓
Pub/Sub		
Subscribe/unsubscribe channels		✓
Customize channel colorings		✓
Save as profile		✓
Archive messages		✓
Backup/Restore		
Backup/restore MySQL/MariaDB/PostgreSQL/Redis/SQLite database		✓
Convert backup file into SQL script		✓
MongoDump and MongoRestore	✓	✓
Oracle Data Pump		✓
SQL Server Backup/Restore		✓
Dump/Execute SQL file	✓	✓
Execute Redis Command File	✓	✓
Automation		
Set schedule on backup, MongoDump, MongolImport, MongoExport, MapReduce, query execution, import/export, data transfer and data synchronization		✓
Run profiles from different servers in a single batch job		✓
Include attachment for export file in notification email		✓
Other Useful Features		
Data Generation		✓
Schema Analysis		✓
ER Diagram view		✓
Virtual grouping		✓
Customize connection colorings	✓	✓
Database wide search		✓
Favorites list		✓
Print database/schema/table structure		✓
Dark mode	✓	✓
